

THE GREAT YEAR: 2025

Every 100 years the Spiritual Hierarchy (the group of free souls who guide the destinies of all aspects of life on the planet) meet in conclave to plan for the evolution of Humanity and all life on the planet for the next 100 years. The last Great Conclave of the Hierarchy occurred in 1925. The results of that meeting were many:

1. There was a fresh in flow of the Christ energy. Humanity awakened to the issues of brotherhood. This resulted in the emergence of many groups and organizations expressing goodwill.
2. There was a stimulation of relationship. We increasingly recognize that we are linked as one. The development of many new forms of communication both helped cause this and also resulted from the awareness of oneness.
3. There were three inflows of the Will from the Shamballa or planetary head centre. It is this Will which has created the world crisis/opportunity.
4. A wave of advanced souls took incarnation.
5. The Hierarchy moved from the vibrational domain we call the higher mental plane to the plane of intuition: the buddhic plane. This linked Humanity to the living or etheric body of our Planetary God. The inflow of vitality has stimulated the development of consciousness. Since light is associated with consciousness, we can say that there has been a great intensification of light which will increase greatly over the next 19 years.
6. One of the results of all of the above is that by 2025, millions of individuals will have taken the first initiation. Because of this experience, they will be motivated to remove the material causes of fear for Humanity.
7. The World Federation of Nations will achieve inner organization and the beginning of outer organization by 2025.

Before the year 2025, all those who love Humanity are charged with doing three things:

1. Make Humanity aware of the inner world of the soul. This will open for them the inner world of meaning. This will give a sense of the enduring qualities of life and lessen the grief which is experienced over the transitory nature of forms.
2. Create an awareness of those who implement world affairs and engineer steps for Humanity to reach its destined goal. The Spiritual Hierarchy needs to be seen for what it is: Enlightened beings who have broken free from the need to re-incarnate, but who willingly remain within the subtle field of Earth to stimulate human freedom, responsibility and loving relationship.
3. Promote an awareness that there is a plan for the development of the development of this planet. This Plan is formulated by the Masters of the Wisdom: the Spiritual Hierarchy of the planet.

What can we expect will the outcome of the 2025 Hierarchical Conclave:

1. Specific plans will be made for the physical return of the Hierarchy. Over time, this will mean that Masters of the Wisdom will in positions of power and governance in all fields of human activity.
2. Plans will be made for the return of the Christ. He will over-shadow Humanity and, as such, Humanity will be the Aquarian Christ. But, he will also assume a physical body. (The timing of this event and the above event are dependent upon the preparation of Humanity. If they are not sufficiently receptive, their energies will repulse both the Masters and the Christ).

3. New teachings, probably on the nature of the Will, will become available. These teachings will build upon the teachings contained with The Secret Doctrine by Helena Blavatsky and A Treatise on Cosmic Fire by Alice Bailey.

The results of the 2025 Hierarchical Conclave as their decisions work out over 100 years promise to change our lives radically. We have only to look at the period from 1925 to get a sense of the magnitude of change. I suspect the changes will far out-strip the changes in the 20th century because we are in an exponential growth cycle.

In the next 19 years, those of us who are relatively awake have a tremendous amount of work to do. We must do all we can to create a powerfully evocative vision of the future. We must work to remove the tremendous fear of lack that grips Humanity. We must demonstrate Love in action.
